

Idea 3 – Answer cards for suggestions box

One way of gathering ideas about research priorities is to put up a poster and to leave out a suggestions box that people could leave their responses in. This could go in an area where a lot of people gather – for example, a reception, dining area or staff room.

When you have responses that you would like to send back, you can send these to us via the prepaid envelope provided (please contact carehomepriorities@herts.ac.uk if you require prepaid postage).

We've included a poster on **page 2** and templates for our answer cards on **page 3**.

If you would like to leave out leaflets, we have some available on our website that are free to download. You could also consider contacting us for a full activity pack, as we will post out these resources to you.

PRINTING INSTRUCTIONS:

We would recommend printing these **single-sided**.

Each answer card page can be cut in half along the line to make two cards.

Have your say...

...about the future of care home research

Are you...

- An **older person** living in a care home?
- A **friend or family member** of a care home resident?
- A **staff member or manager** working in a care home?
- A **researcher** interested in older people?
- A **professional** who works with care home residents?
- A **member of the public** who is interested in care homes?

We would like to hear from you!
Put your suggestions in the box below or visit:
